Professional Summary

Results driven Computer Science undergraduate with hands on experience in full-stack web development, machine learning, and AI-integrated systems. Built scalable applications using React and Node.js, developed REST APIs, and created machine learning models for academic and personal projects. Seeking a software engineering internship or junior developer role to contribute to real-world projects while improving technical expertise.

Technical Skills

- **Languages:** Python, Java, JavaScript (ES6+), SQL, HTML, CSS
- **Frameworks & Libraries:** React.js, Node.js, Express.js, TensorFlow, LangChain, FastAPI, Java Swing
- **Databases:** MySQL, MongoDB
- **Tools:** Git, Figma, VS Code, IntelliJ IDEA, Draw.io
- **Concepts:** OOP, REST APIs, MVC Architecture, Agile Development, UI/UX Design, Machine Learning

Projects

LegalMind - AI Sinhala Legal Document Summarization System (React, Node.js, FastAPI, SQL)

- Built an AI-powered system to summarize and analyze Sinhala legal documents.
- Implemented NLP-based extraction of key legal insights from contracts and rulings.
- Developed full-stack web interface for document upload, search, and management.

Sinhala Legal Dataset Creation for NLP (Python, Tesseract OCR)

- Created and processed a labeled dataset of Sinhala legal documents.
- Applied OCR and preprocessing for machine learning model training.

HarborReads - Book Recommendation Chatbot (React, Node.js, MongoDB, LangChain)

- Developed an AI chatbot that provides personalized book recommendations.
- Integrated OpenAI API and LangChain for conversational AI functionality.

Tomato Disease Detection System (Python, EfficientNetV2B0)

- Built a deep learning model for plant disease classification.
- Fine-tuned EfficientNetV2B0 to improve prediction accuracy.

E-commerce Web Application (React, Node.js, MySQL)

- Developed a full-stack e-commerce platform with cart and checkout system.
- Implemented authentication, product management, and real-time updates.

Music Website (HTML, CSS, JavaScript)

- Built a responsive website showcasing music genres and evolution.

Education

BSc (Hons) Computer Science 2022 – Present
Informatics Institute of Technology, Sri Lanka (University of Westminster Affiliated)

- Software Development, Database Systems, Machine Learning, Web Development, OOP, Algorithms

Foundation Certificate in Computing 2021 – 2022
Informatics Institute of Technology

GCE Ordinary Level 2020
Piliyandala Central College, Sri Lanka

Work Experience

UI/UX Designer

2023 – 2024

Codez Solutions

- Designed user interfaces and improved user experience for web and mobile applications.
- Created wireframes, prototypes, and high-fidelity designs using Figma.
- Collaborated with developers to ensure design consistency and usability across products.

Software Developer

2024 – 2025

Asipiya Soft Solution

- Developed and maintained full-stack web applications using React and Node.js.
- Integrated REST APIs and worked on frontend-backend functionality.
- Participated in debugging, testing, and performance optimization.
- Worked in an Agile team environment delivering features iteratively.

Extracurricular Activities

- IEEE Xtreme Programming Competition Participant
- IEEE PyHack Coding Challenge Participant
- IEEE Designathon (IX-23) Participant
- IEEE Computer Society Member (IIT)

Certifications

- Figma Essential Training - LinkedIn Learning
- Python Object-Oriented Programming - LinkedIn Learning

Languages

- Sinhala (Native)
- English (Professional Working Proficiency)
